

CARPET/RUG CLEANING

It is up to you, the childcare provider, to protect the young ones in your care. Spot cleaning the carpeting properly will help eliminate disease.

- 1. Apply mild soapy solutions to the area with a clean cloth or paper towel.**
- 2. Blot excess with clean cloth or paper towel.**
- 3. Remove most of soapy residue with clear water.**
- 4. Blot excess with clean cloth or paper towel.**
- 5. Apply an approved sanitizer to the carpet.**
- 6. Wait a few minutes, and then blot excess. The carpet should be as dry as possible.**

CARPETS/RUGS SHOULD BE PROFESSIONALLY CLEANED YEARLY IF NOT TWICE A YEAR. (MAKE SURE CHEMICALS ARE NONHYPERALLEGENIC.)
